Brightening  
and global  
antiaging care

DERMAWORLD

Leading skincare brand, recognised for its wide range of products that adapt to different skin needs. Its approach is based on research and it has a team of expert dermatologists and scientists to ensure maximum efficacy and safety.

One of the main advantages of **Dermaworld** products is that they are formulated with natural and gentle ingredients, making them suitable for all skin types, even the most sensitive. They are also carefully formulated to treat specific problems such as sun damage and hyperpigmentation, which are common in extreme climates.

**Dermaworld's** sunscreens offer robust protection against harmful UV rays,

while its serums and moisturisers provide deep hydration and nourishment to promote healthy, radiant skin.

Thanks to its commitment to quality and innovation, **Dermaworld** has earned the trust of countless customers around the world who have seen transformative results in their skin and embraced the true essence of beauty.

# Welcome to the **MELADEEP** family

Our dedication to skin care has led us to develop a range of specialized products to address pigmentation damaged and aged problems such as hyperpigmentation, melasma and skin blemish disorders.

Recognizing that each area of the skin has unique needs, we have created four specialized treatment kits to provide customized and effective solutions:

1

## FACIAL TREATMENT

Designed to address pigmentation in areas of the face.

Includes products formulated for professional application and booster products for home use.

3

## PERIOCCULAR TREATMENT

Specially designed to treat the delicate eye area.

Gentle and effective products to reduce pigmentation in this sensitive area.

2

## CORPORAL TREATMENT

Focused on comprehensive body skin care, with high quality products.

Perfect for those who are looking for noticeable results on their body skin.

4

## INTIMATE AREA TREATMENT

To address pigmentation concerns in intimate areas.

Offers gentle and effective solutions for more even and radiant skin.

# Facial TREATMENT

Effective treatment to improve and control facial hyperpigmentation, restoring uniformity to the skin colour, as well as improving brightness and texture.

## FACE KIT

### PROFESSIONAL

#### MELADEEP MASK

Professional chemical exfoliation mask to be applied in the specialised clinic, with the aim of removing pigmented cells and contributing to the penetration of active ingredients that will lead to the depigmentation process.

Mandelic acid, Phytic acid, Undecylenoyl phenylalanine, Phenylethyl resorcinol, Ascorbic acid, Retinol, Salicylic acid, Soya glycine oil.

10g

### HOME CARE

#### MELADEEP POST CREAM

It homogenises skin colour, induces skin renewal and promotes anti-oxidation processes, thus restoring skin tone, smoothness, radiance and hydration.

Mandelic Acid, Retinol, Soya Glycine Oil, Ascorbic Acid, Phytic Acid, Undecylenoyl Phenylphenylalanine, Phenylethyl Resorcinol.

20g

HOME CARE

## DERMA HYDRA SCREEN SPF 30+

Formulated with physical and chemical sun filters that provide the skin with extreme protection against solar radiation (UVB/UVA) responsible for the appearance of hyperpigmentation, ageing and skin deterioration.

### CHEMICAL FILTERS

Ethylhexyl Methoxycinnamate, Isoamyl P-methoxycinnamate, Ethylhexyl Triazone, Butyl Methoxydibenzoylmethane

### PHYSICAL FILTERS

Titanium Dioxide, Tocopheryl Acetate, Rosa Moschata Seed Oil

60g

HOME CARE

## DERMA HYDRA COMPLEX

Intense hydration that provides a highly moisturising, revitalising and stimulating protective layer, weakening possible irritated skin reactions, allowing action to give the skin a balancing and soothing effect.

Alkyl Lactate, Calcium Pantothenate, Biosaccharide Gum -1, Squalane

60g
